EDUCATION

Bachelor of Science, Computer Science
Ontario Tech University, ON

Graduating 2021

Relevant Coursework

- *Web Application Development*
- *Computer Architecture*
- *Analysis and Design of Algorithms*
- *Database Systems and Concepts*
- *Computer Graphics and Advanced Computer Graphics*

Extra-Curricular Activities

- Member of the Programming and Software Club and the Electrical and Motorsports Club

Relevant Skills and Experience

Application Development Experience:

- Built various computer graphics programs using the OpenGL library to learn various techniques that are used to render graphics, such as Ray Tracing.
- Build a Bookmark Application that allows the user to store multiple bookmarks based on their session key. The application was built using Laravel and React and MariaDb as the backend.
- Built a React application that calls a REST API and displays different monsters, with the ability to search for a specific monster
- Built a mock e-commerce clothing shop using React and the Stripe API to allow the user to browse through the site and make fake purchases.

Work Experience

Team Member

June 2015 - Present

Tim Hortons (Ajax, ON)

- Provided timely and courteous services to customers and maintained sanitation, health, and safety standards in work areas.
- Worked in a fast-paced environment while multitasking and communicating with fellow team members to meet customer needs.
